

R (Read the problem carefully.)

There are 24 penguins sliding on the ice. There are 18 whales splashing in the ocean. How many more penguins than whales are there?

D (Draw a picture.)

W (Write and solve an equation.)

W (Write a statement that matches the story.)

Name _____

Date _____

1. Count and categorize each picture to complete the table with tally marks.

No Legs	2 Legs	4 Legs

2. Count and categorize each picture to complete the table with numbers.

Fur	Feathers

3. Use the Animal Habitats table to answer the following questions.

Animal Habitats		
Forest	Wetlands	Grasslands

- How many animals have habitats on grasslands and wetlands? _____
- How many fewer animals have forest habitats than grasslands habitats? _____
- How many more animals would need to be in the forest category to have the same number as animals in the grasslands category? _____
- How many total animal habitats were used to create this table? _____

4. Use the Animal Classification table to answer the following questions about the types of animals Ms. Lee's second-grade class found in the local zoo.

Animal Classification			
Birds	Fish	Mammals	Reptiles
6	5	11	3

- a. How many animals are birds, fish, or reptiles? _____
- b. How many more birds and mammals are there than fish and reptiles? _____
- c. How many animals were classified? _____
- d. How many more animals would need to be added to the chart to have 35 animals classified? _____
- e. If 5 more birds and 2 more reptiles were added to the table, how many fewer reptiles would there be than birds? _____
